

The Rebel Within: Defeating Self-Sabotage and Reaching Your Potential

If you're a human then you have at least one voice in your head that chimes in on everything you do or want to do.

Sometimes the voices are enjoyable...

"Oh yay! Chocolate!"

"I feel so GOOD right now."

"That's a great song!"

And other times, not so much.

"I look so fat & ugly in this shirt."

"I can't do anything right. I should just give up."

"Nobody wants to hear anything I have to say."

The negative self-talk that plagues the minds of every person on the planet can be painful, and downright crippling. It can (and will) drive some people crazy and rob them of their dreams, which is exactly what makes it so dangerous.

Left unchecked, this voice will throw a wrench in every endeavor you'll ever pursue. It will try to sabotage your relationships, ruin your opportunities, and leave you miserable, wrecked and wondering what could have been.
